**Project Development Phase Sprint – 3**

```
Edit application services:

The following are either provisioned and in use by this app, or ready to be
added.
Select action number to view details and/or make changes.

Note: Cloud Foundry organization and space are not set, Cloud Foundry options
will not be available.
To enable Cloud Foundry options, use 'ibmcloud target --cf' or
'ibmcloud target -o ORG -s SPACE'

1. Db2-1h : Not in use

2. Create a new service and add it to this application
3. Refresh service list
------------------------
0. Return to the previous selection

=============================================
? Enter selection number:> 1
Creating application...
The app containment zone alerting application has been created in IBM
Cloud.

Creating and adding service to application...
Service Db2-1h successfully added.
Preparing generators...
Creating and adding service to application...
```

```
Generating application...
Unzipping app into directory: containment zone alerting application...

The app, containment zone alerting application, has been successfully
saved into the current directory.

C:\Users\ELCOT>git clone https://github.com/IBM-Cloud/node-helloworld.git
'git' is not recognized as an internal or external command,
operable program or batch file.

C:\Users\ELCOT>ibmcloud target --cf
IBM Cloud Foundry Public is deprecated. For more information, see http://ibm.biz/ibmcf-announce
Targeted Cloud Foundry (https://api.us-south.cf.cloud.ibm.com)

No organizations were found.
Use ibmcloud account org-create ORG to create an org in the target public CF environment.

API endpoint:      https://cloud.ibm.com
Region:            us-south
User:              961919104001@smartinternz.com
Account:           Anusha N's Account (87ba27691f9d4f6b92694939014d4313)
Resource group:    No resource group targeted, use 'ibmcloud target -g RESOURCE_GROUP'
CF API endpoint:   https://api.us-south.cf.cloud.ibm.com (API version: 2.189.0)
